---

## PROFESSIONAL SUMMARY

Motivated Full-Stack Python Developer and Data Analyst with practical experience in Django, RESTful APIs, Machine Learning, and Generative AI agents. Skilled in designing scalable web applications, optimizing relational databases, and architecting data-driven analytics dashboards to solve business problems.

## TECHNICAL SKILLS

Languages & Core: Python (OOP), JavaScript (ES6+), HTML5, CSS3

Frameworks & Databases: Django, Django REST Framework, SQL (MySQL), MongoDB

AI & Data Analytics: Generative AI, NumPy, Pandas

BI & Developer Tools: Power BI (Dashboards, Data Modeling, DAX), Excel, Git & GitHub

## TRAINING & CERTIFICATION

Python Full Stack Development & Data Analytics - Pyspiders, Bengaluru

- Intensive hands-on training covering full-stack web dev (Python, Django, SQL) & data analytics.

Generative AI for Beginners - Simplilearn SkillUp (Aug 2026)

Python Fullstack Developer - Pyspider Rajajinagar, Bengaluru

## PROJECTS

AI Job Agent Application (Python, Generative AI, Django, Web Automation, Git)

- Developed intelligent AI job search agent that automates job discovery & relevance matching.
- Integrated data extraction pipelines to aggregate tech listings & filter candidate profiles.

Credit Card Default Prediction System (Python, Machine Learning, MySQL, HTML, CSS, Git)

- Engineered predictive ML classification model to identify high-risk credit card customers.
- Executed EDA, data cleaning, outlier handling, and feature scaling using NumPy & Pandas.

## EDUCATION & LANGUAGES

B.Tech in Computer Science and Engineering | BPUT (2020 - 2024) - 7.72 CGPA

Higher Secondary Education (Science) | Rajdhani Higher Secondary School (2018 - 2020) - 63%

Languages: English, Kannada, Hindi, Odia
